Background and Statement of Commitment

About 1.8 million people in Ontario or about 15.5% of the population report having a disability (Statistics Canada, 2006). People with disabilities are active participants in our communities, contributing to the local economy and accessing local goods and important that the services and facilities of the people with disabilities.

Statistics project that by 2036, 20% of all Canadians will have some form of disability. And in the next 20 years, an aging population and people with disabilities will represent 40% of the total income in Ontario that's \$536 billion (Ontario Population Projections 2008- 2036, Fall 2009 Ministry of Finance Report). As a result, service delivery, and programming will continually need to be modified to meet changing needs. The South Simcoe Police has developed accessibility plans and policies in order to remove barriers and ensure availability of services for people with disabilities.

The Multi-Year Accessibility Plan outlines strategies and actions to identify, prevent, and remove barriers for people with disabilities. The plan also details our approach, timelines and strategy to meet the requirements of Ontario's accessibility legislation, the Accessibility for Ontarians with Disabilities Act, 2005. The Plan addresses the requirements of the Regulation (IASR) under the Accessibility for Ontarians with Disabilities Act of 2005. In 2005, the Accessibility for Ontarians with Disabilities Act, 2005 created five standards in accessibility in the areas of Customer Service, Information and Communication, Employment, Transportation, and the Built Environment.
